

# Mono-Yosemite Gateway Trail

## *Community Workshop*

Lower Lee Vining Trail

*Imagine...a trail that connects downtown Lee Vining to nearby recreation areas, Mono Lake, Lower Lee Vining, and Yosemite National Park.*

Please join the Mono County Planning Department, community partners, and public agencies in helping to plan the Mono-Yosemite Gateway Trail. Together, we will develop a Conceptual Trail Plan that documents the community's vision, identifies potential trail alignments, and more!

During the next few months, meetings with a technical trail design team, key stakeholders, and two community workshops will be held. The draft Conceptual Trail Plan will be completed by Fall 2013. A more formal NEPA process, which may alter the trail plan, will follow.

### **Get Involved!**

Attend the upcoming Community Workshop in order to share your ideas for this potential trail. We need your help to identify potential trail connections, trail uses (i.e. walking biking, cross-country skiing), amenities, access points, and interpretive themes.

**What: Community Workshop**

**When: May 8, 2013 at 6:30 p.m.**

**Where: Lee Vining Community Center**
